Designing for a new generation of pet friendly furniture
Meet Sean and Caitlin
In 2020, we moved into our first home, eager to furnish it. Our shopping spree soon turned into a wake-up call when we unboxed excessive plastics and single-use tools, drowning in disposable waste. This experience ignited our desire for change. Fast forward to 2024, and we've introduced the NORTON Bedside Table, crafted from sustainable timber. It simplifies furniture assembly, eliminates waste, and aligns with our commitment to sustainability. Join us on this journey toward a more sustainable and simplified way of living. Experience our products and be part of the change.
