Lazercote – Epoxy Resin Flooring Experts in Birmingham

Lazercote is a leading provider of high-performance resin flooring solutions, serving businesses across Birmingham and the surrounding areas. With decades of experience in the flooring industry, we deliver reliable, durable, and visually striking resin systems for commercial and industrial environments. Our expertise covers every aspect of the process — from initial consultation and floor preparation to the final installation and finishing touches.

Epoxy Resin Flooring Solutions for Every Environment

Our epoxy resin flooring systems are designed to meet the diverse needs of modern workspaces. From warehouses and factories to commercial kitchens and showrooms, we provide seamless, easy-to-maintain floors that withstand heavy use.

harsh cleaning agents, and chemical exposure. Lazercote floors are built for strength, hygiene, and long-term performance, offering both practicality and aesthetic appeal.

#### Specialists in Self Smoothers and Resin Coatings

For clients requiring a smooth, flawless finish, our self-smoothing resin floors provide an ideal solution. These systems create a level surface that is not only attractive but also highly resistant to wear and tear. In addition, we apply advanced resin floor coatings that enhance the performance of existing surfaces, offering protection against abrasions, chemicals, and general impact.

#### Comprehensive Floor Preparation

At Lazercote, we understand that a successful flooring installation begins with proper preparation. We carry out all aspects of surface preparation, including grinding and cleaning, to ensure the substrate is ready to receive the resin system. This attention to detail ensures strong adhesion and a superior finish, reducing the risk of future maintenance issues.
